

AMANUA MARY OSEI

UI/UX Designer | Front-End Developer

Accra New Town, Ghana · 0559372258 · amanuamaryosei@gmail.com · [linkedin.com/in/amanua-mary-osei](https://www.linkedin.com/in/amanua-mary-osei)

PROFESSIONAL SUMMARY

Detail-oriented UI/UX Designer and Front-End Developer in training at the Design and Technology Institute (DTI), with a growing portfolio of civic- and social-impact-themed projects. Skilled in building responsive, semantic interfaces with pure HTML, CSS, and JavaScript, and in developing cohesive visual design systems — from typography and color palettes to interactive layout details. Motivated to grow within a collaborative team and contribute design and development skills that improve product usability and business outcomes.

EXPERIENCE

Web Development Trainee — Design and Technology Institute (DTI)

September 2025 – August 2026

- Trained in front-end development and UI/UX design fundamentals, including HTML5, CSS3, JavaScript, and responsive, mobile-first layout techniques.
- Designed and built case-study projects addressing real social issues, translating research and user needs into clear visual narratives.
- Practiced design-system thinking — consistent typography, color, and component styling — across multiple personal project iterations.
- Collaborated with peers and facilitators in a studio-style learning environment, incorporating feedback into revised design iterations.

Front-End Developer & UI/UX Designer — Personal Portfolio Project (Self-Directed)

2026

- Designed and developed a personal portfolio website in pure HTML, CSS, and JavaScript with no external frameworks.
- Refined a premium editorial visual identity through multiple iterations, including a cream, deep-ink, and plum color palette with gold accents.
- Built interactive front-end features such as animated filter tabs, a marquee ticker, and hover-based project previews.

PROJECTS

Patriotism — Unity and National Pride Case Study

A mobile UX case study centered on unity and national pride, promoting national values, togetherness, and responsible citizenship among young people in Ghana.

Save Water — Environmental Awareness Case Study

A data visualization and information-design case study raising awareness of water conservation, presenting environmental data through clear, user-friendly visual storytelling.

EDUCATION

Web Development — Design and Technology Institute (DTI), Ghana

September 2025 – August 2026

- Studying front-end development, UI/UX design principles, and responsive web design through hands-on, live projects.

General Art — Evangelical Presbyterian Senior High School, Ghana

May 2021 – September 2023
